

Broomfield

Synopsis of Proposed Changes

The Broomfield City Council recently held a first reading for Ordinance No. 2186 – Amending Chapter 17 of the Broomfield Municipal Code Regarding Requirements for Electric Vehicle Infrastructure and Parking Requirements. The proposed ordinance establishes definitions for the EV parking infrastructure, it outlines the number of EV parking spaces that are required based on the use, and it requires the EV parking spaces with installed charging stations be identified with EV signage. Second reading and the vote on approval will take place on the August 9th City Council Meeting.
